

Company Profile

BROCHIER Como creates and produces top of the range upholstery and decoration fabrics, well-known all over the world for their sophistication, elegance and the quality of their yarns.

Founded in the early 900's in France, BROCHIER Como was acquired in 2007 by Clerici Tessuto SpA, one of the most important textiles manufacturers in the world for the luxury sector.

Being part of Clerici Tessuto group means being able to control the entire production chain, from the choice of raw materials to the weaving and printing of fabrics. This enables BROCHIER Como to answer its customer requests in a prompt and flexible way, check the quality of its products and processes in every step, test the weaving and printing techniques, renew and improve processes in a constant dialogue with craftsmen and experts of the textile sector.

The BROCHIER Como collection is available in the most prestigious showrooms around the world and is sold through a global network of distributors and agents.

BROCHIER Como offers a wide range of fabrics, colors and combinations: fine silks, printed and jacquards, soft velvets, stripes and damasks in natural fibers, specific yarns for outdoor use and technical flame retardant yarns for the contract market.

BROCHIER Como fabrics testify how creativity, design and production can be harmoniously combined in a continuous focus on quality and beauty, offering solutions that will last beyond the trends of the moment.
